### Counseling Interns 2014-15

All children go through challenging times in their lives that make it difficult for them to learn, to behave appropriately, to have positive social interactions, or to feel good. McKinley Elementary is fortunate to have counseling interns to help McKinley students deal with the challenges they face in their lives and to develop skills to be successful in school and at home. If your child needs extra support, please fill out a Coordination of Services Team (COST) referral (available in the office) and the COST will help connect your child with the services they need. These services can include counseling as well as other programs that can help support you and your family.
