Does Your Child Crave a Math or Science Challenge?

For 2nd through 5th grade students: These classes are intended to be challenging. If you are unsure whether these classes are appropriate for your child's skill level, please consult your child's teacher before signing up.

TeachBar (tchbr.com) will teach both the math and the science classes. For science this session, they will learn about chemistry and explore the elements, getting involved in designing their own experiments, making potions, mixing chemicals, and playing with dry ice. The 2nd & 3rd grade math classes will use games and projects to teach strategy and problem solving. The 4th & 5th grade math time will be spent learning to program in Python. **Parent volunteers will be needed for the science classes – this helps us keep costs down. Please sign up below. It's fun and science knowledge is not needed.**

This 10-week session will cost \$95 per child for math/programming and \$90 per child for science. If you are able to contribute toward the cost of your child's classes, please include a check for what you can afford. If you are able to contribute more it will help ensure we can continue to include everyone. Checks should be made out to SLED with "MaSC" in the memo field. *All* Roosevelt children are welcome to attend our classes, regardless of their family's ability to donate. Any donation you are able to give is tax deductible and will help us to continue bringing these classes to your children and those of other families.

To sign your child up for the math/programming class, the science class, or both, please fill out the application below and turn it in to the office by the end of school on Tues, Sept. 9.

Classes this session run for **10 weeks**, starting Monday, September 15 and ending Friday, November 21.

What is the Math and Science Challenge (MaSC) Program?

The Math and Science Challenge (MaSC) offers advanced instruction for students who love science or have mastered their grade-level math curriculum and are hungry for more. The program offers advanced math and science after school classes which emphasize creativity and perseverance. The program was founded by and is administered by Roosevelt parents.

Approximately half of the class spaces will be reserved for students referred by their teachers because they are identified as being the most in need of advanced curriculum. The rest of the class spaces are available for open enrollment for students with enthusiasm for math or science.

The MaSC program is a public/private partnership funded entirely by private funds from San Leandro individuals and businesses.

If you are interested in getting involved with the MaSC Program, please contact Jill Rodgers-Quaye at yaateq@sbcglobal.net.

The MaSC program has been made possible through generous donations from:

Programs for September

Sneakers After School Program: August 20th

Our after school program runs from 2:00 until 6pm Monday thru Friday. Staff meet children at Roosevelt elementary playground and the group walks to the center. Once children get to the site we have homework time, snack time, then a scheduled activity. Activities range from sports, arts and crafts, and lower organized games. We would love to expand our program to Washington Elementary and have staff be able to pick up students from there as well. We are open for day camp on some holidays, on these days a separate fee is charged. We offer daily (\$15), weekly (\$60), and monthly (\$220) options. We are also open for planning days with an additional fee of \$20.
