

Internet Safety

There used to be a public service advisory that stated, "It is 10:00, do you know where your child is?" Your child is at home, using the computer, but do you know where they are going on the internet? Certainly parents are challenged by the amount of information available through the internet. Children at any age can access information that is not intended or appropriate for developing minds. Video games depict war and violence as a pastime rather than as the worst tragedies of humanity. Our responsibilities as parents and educators are significantly more challenging than the previous generations. San Leandro Unified School District and James Madison take great care and responsibility when allowing students to use technology to enhance their learning. We have filters and safeguards which monitor and inform us of inappropriate internet use by students. For more information, go to [Common Sense Media](#)

The Road to College Begins TODAY! Visit a local University & check out some of these events open to the public. Make a family day and pack a lunch the campus grounds with a picnic lunch.

- **Saturday, April 13th** CAL Day at UC BERKELEY for more information visit <https://calday.berkeley.edu/>
- **Sunday, April 14th** & 2nd Sunday of each month Stanford University Family Days <https://museum.stanford.edu/programs/family-programs>

Don't forget EVERY MONDAY is College Day here at Madison!! Students and STAFF can wear their favorite college gear!
