

Finally, we have two great programs for our students who need extra academic support. In grades 1st through 3rd, we have Mustang Academy. For our 2nd – 5th grade students, we have a targeted support program held in our library. Both of these programs are designed to address academic intervention through a referral process. The library program will no longer be a sign up on the website, but rather by invitation based on student academic needs. If you have questions regarding these programs, please feel free to contact the office.

We add and develop programs in alignment with our school plan, district, and state funding. Stop by the office for additional sports and arts programs hosted through the city of San Leandro and Alameda County.
