

March 11, 2019

Good Morning Parents,

I hope everyone had a wonderful weekend. Last week, the students read informational text about how animals work together, such as a team of fish and a colony of bees. Students researched an animal of their choosing and worked to create an informational writing piece. We also studied the vowel teams ee and ea. In honor of Women's History Month, students learned about Supreme Court Justice Sonia Sotomayor. We also began learning about the variety of animal groups in science. In math, students began learning about data and how to interpret it.

This week, students will continue to read about animals. Our spelling words will focus on ways to spell long o. In math, we will continue to practice interpreting data. We will explore the characteristics of different animal groups this week, as well. The class will learn about aviator Bessie Coleman as we continue to celebrate Women's History Month.

Read-a-thon: Please remember to record your child's nightly reading on the Read-a-thon paper.

Donations: Thank you so much for the classroom donations. If you would still like to donate to the classroom, as are still in need of copy paper.

Important Dates

Thursday, March 14th- School Smarts in the Library, 8:15am- 9:30am

Friday, March 15th- Report Cards go home
