NEWS!

WEEK OF:

October
21st- 25th

This week in Room 22:

We had a lot of fun learning about bats this week! We compared fiction and nonfiction bat stories, learned about the structure and function of different body parts, and abilities, and studied different types of bats, too! In math, students are doing a great job applying our strategies to subtraction problems. Friday was all about pumpkins! We picked our pumpkins and studied them in several ways. We even enjoyed a pumpkin treat!

Next Week:

Students will begin discussing different jobs in the community during our Language Arts time. We will finish up our first module in math (all about addition and subtraction strategies). Students will be bringing home their workbooks soon and will be taking their test, too. We will discuss pumpkins more in science, including what happens to them after pumpkin season is over.

Reminders:

- * Thursday, October 31st, is the day of the school parade. Parents are welcome to stand near the route to take pictures. It will begin at 1:10/1:15pm.
- * Students should not come to school in a costume. **Costumes should come to school in a bag with the student's name on the bag.** They will be given time to change after lunch.

Please let me know right away if you do not want your child to walk in the parade on Thursday.

I hope to see you at the carnival tomorrow.

Have a great weekend!

Sincerely,
Mrs. Sarkany
Room 22
